

# Efficient Operations & Clear Views:

# Planning the 2031 Nordic World Championship Transit Hub

Summer School Workshop 2024 - Kyushu University

## Location

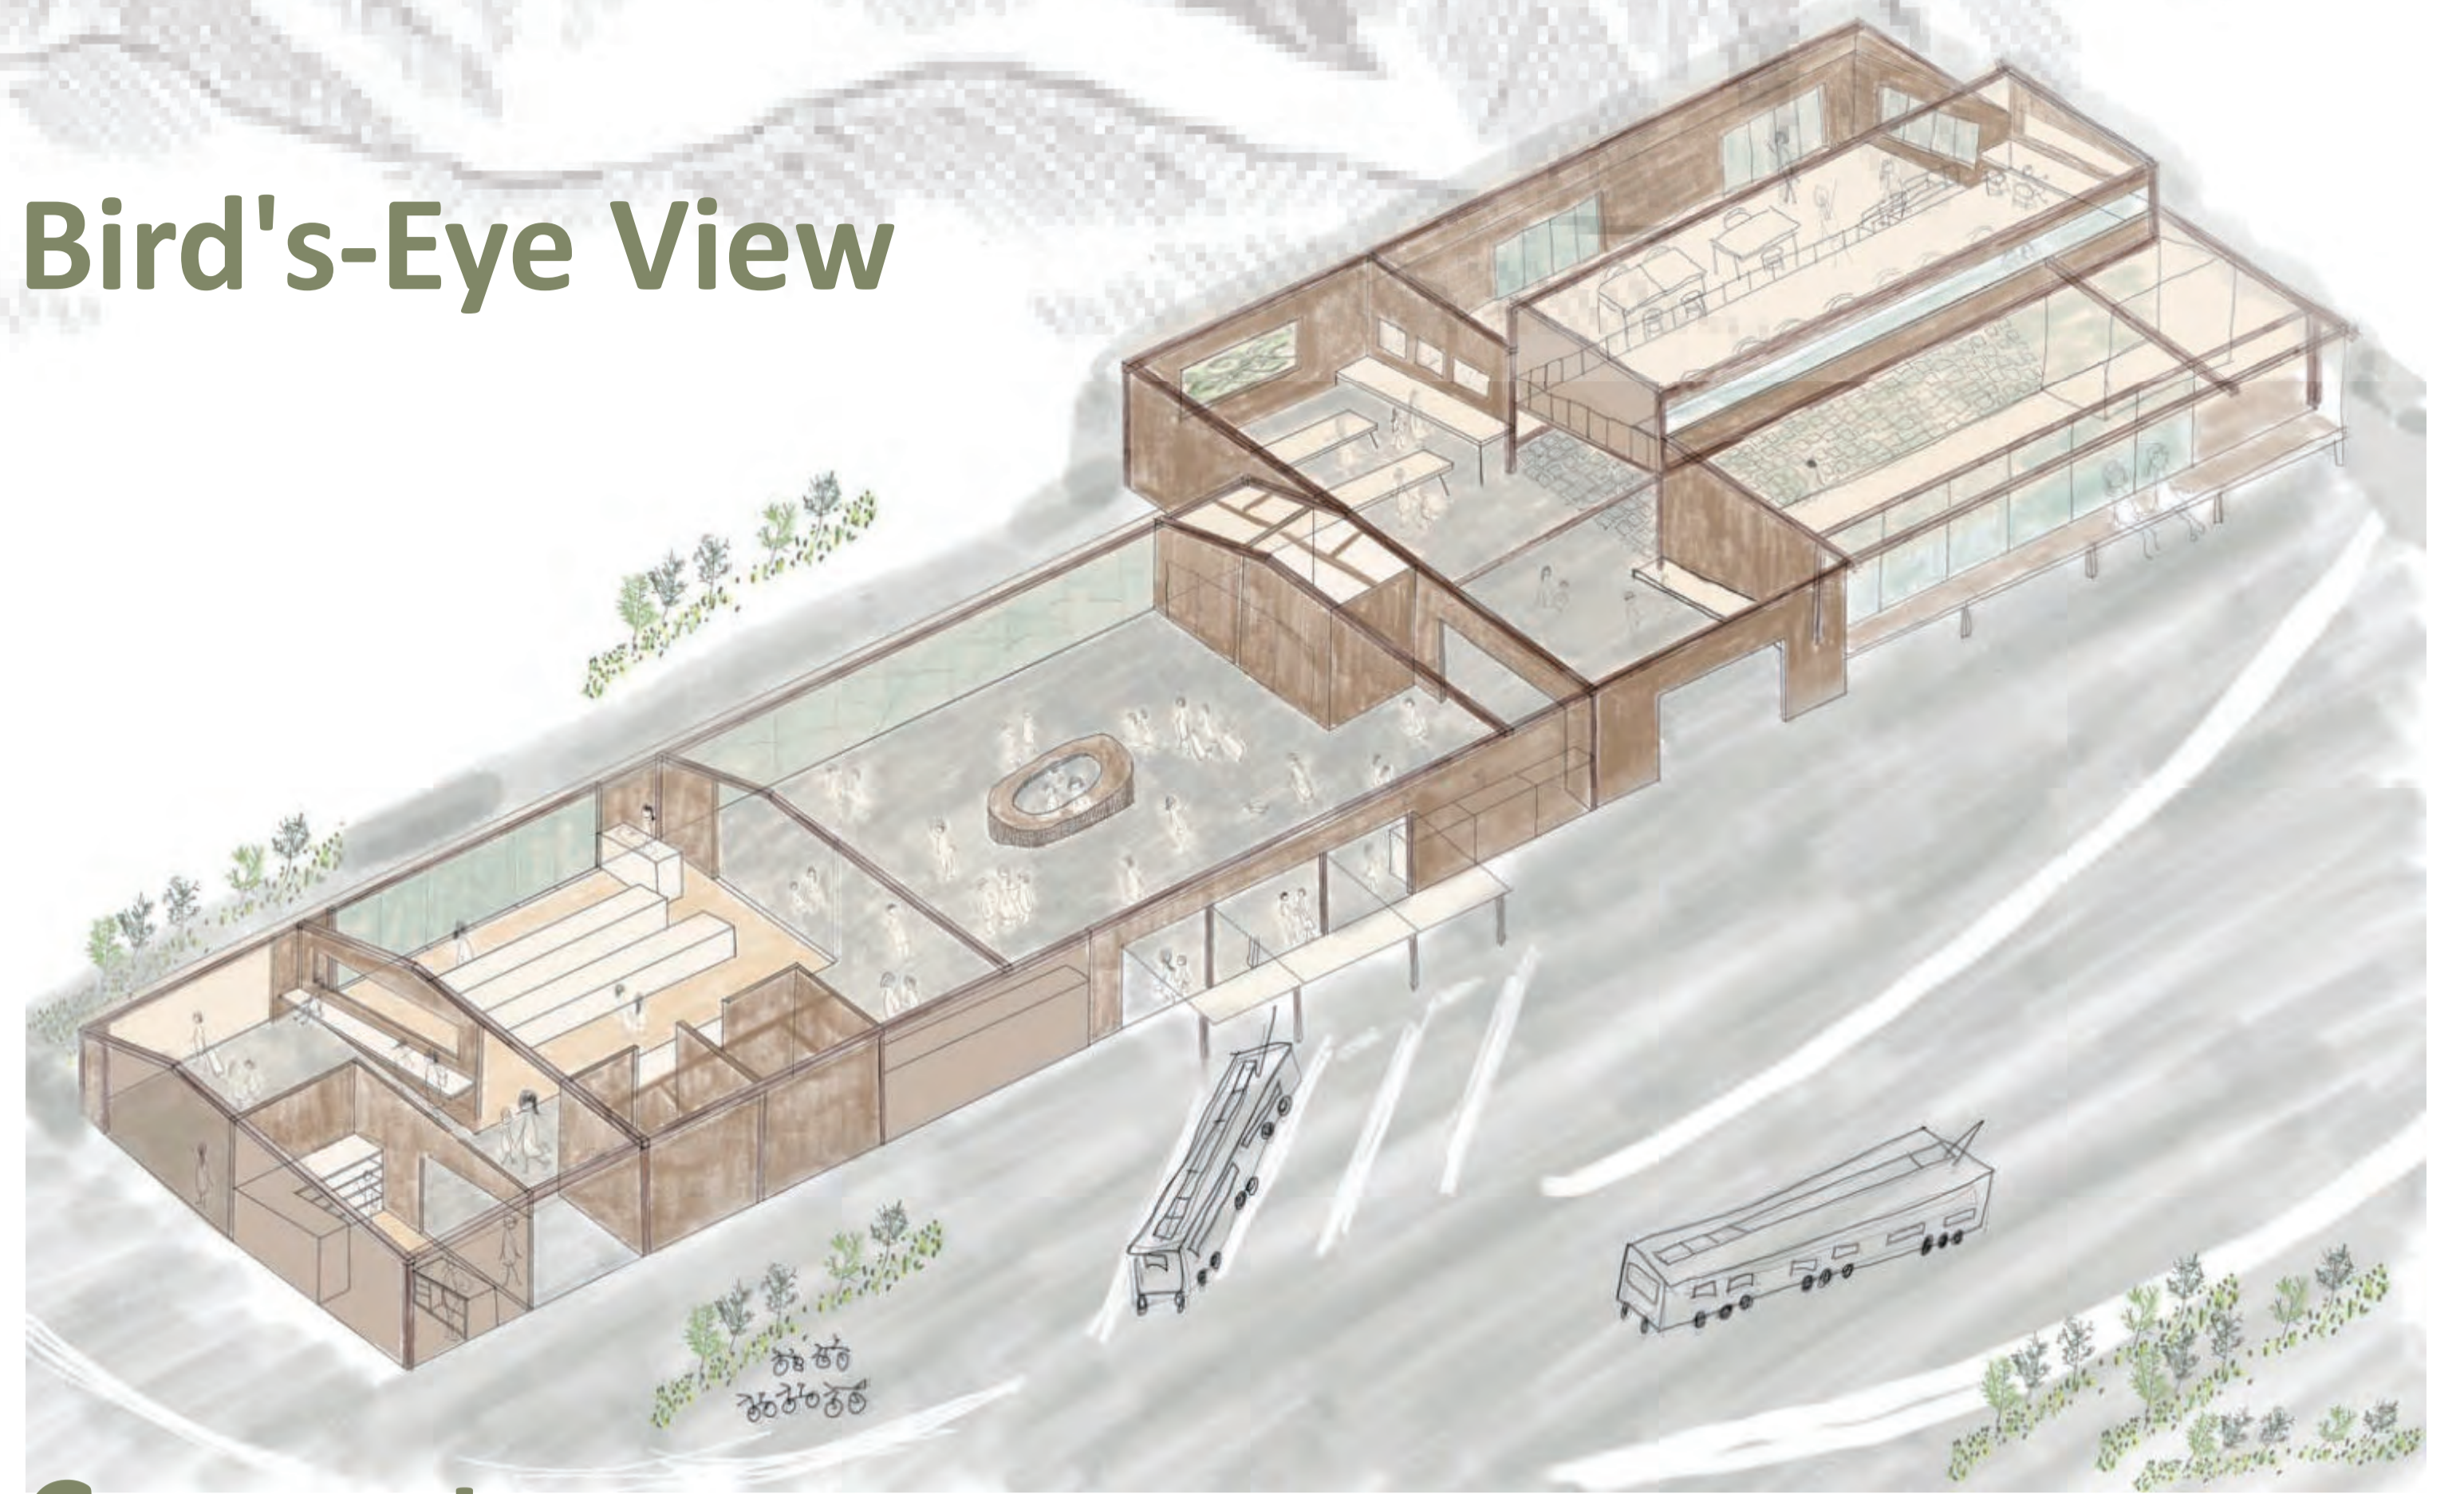

Europe

Austria

Ramsau am Dachstein

## Bird's-Eye View

## Concept

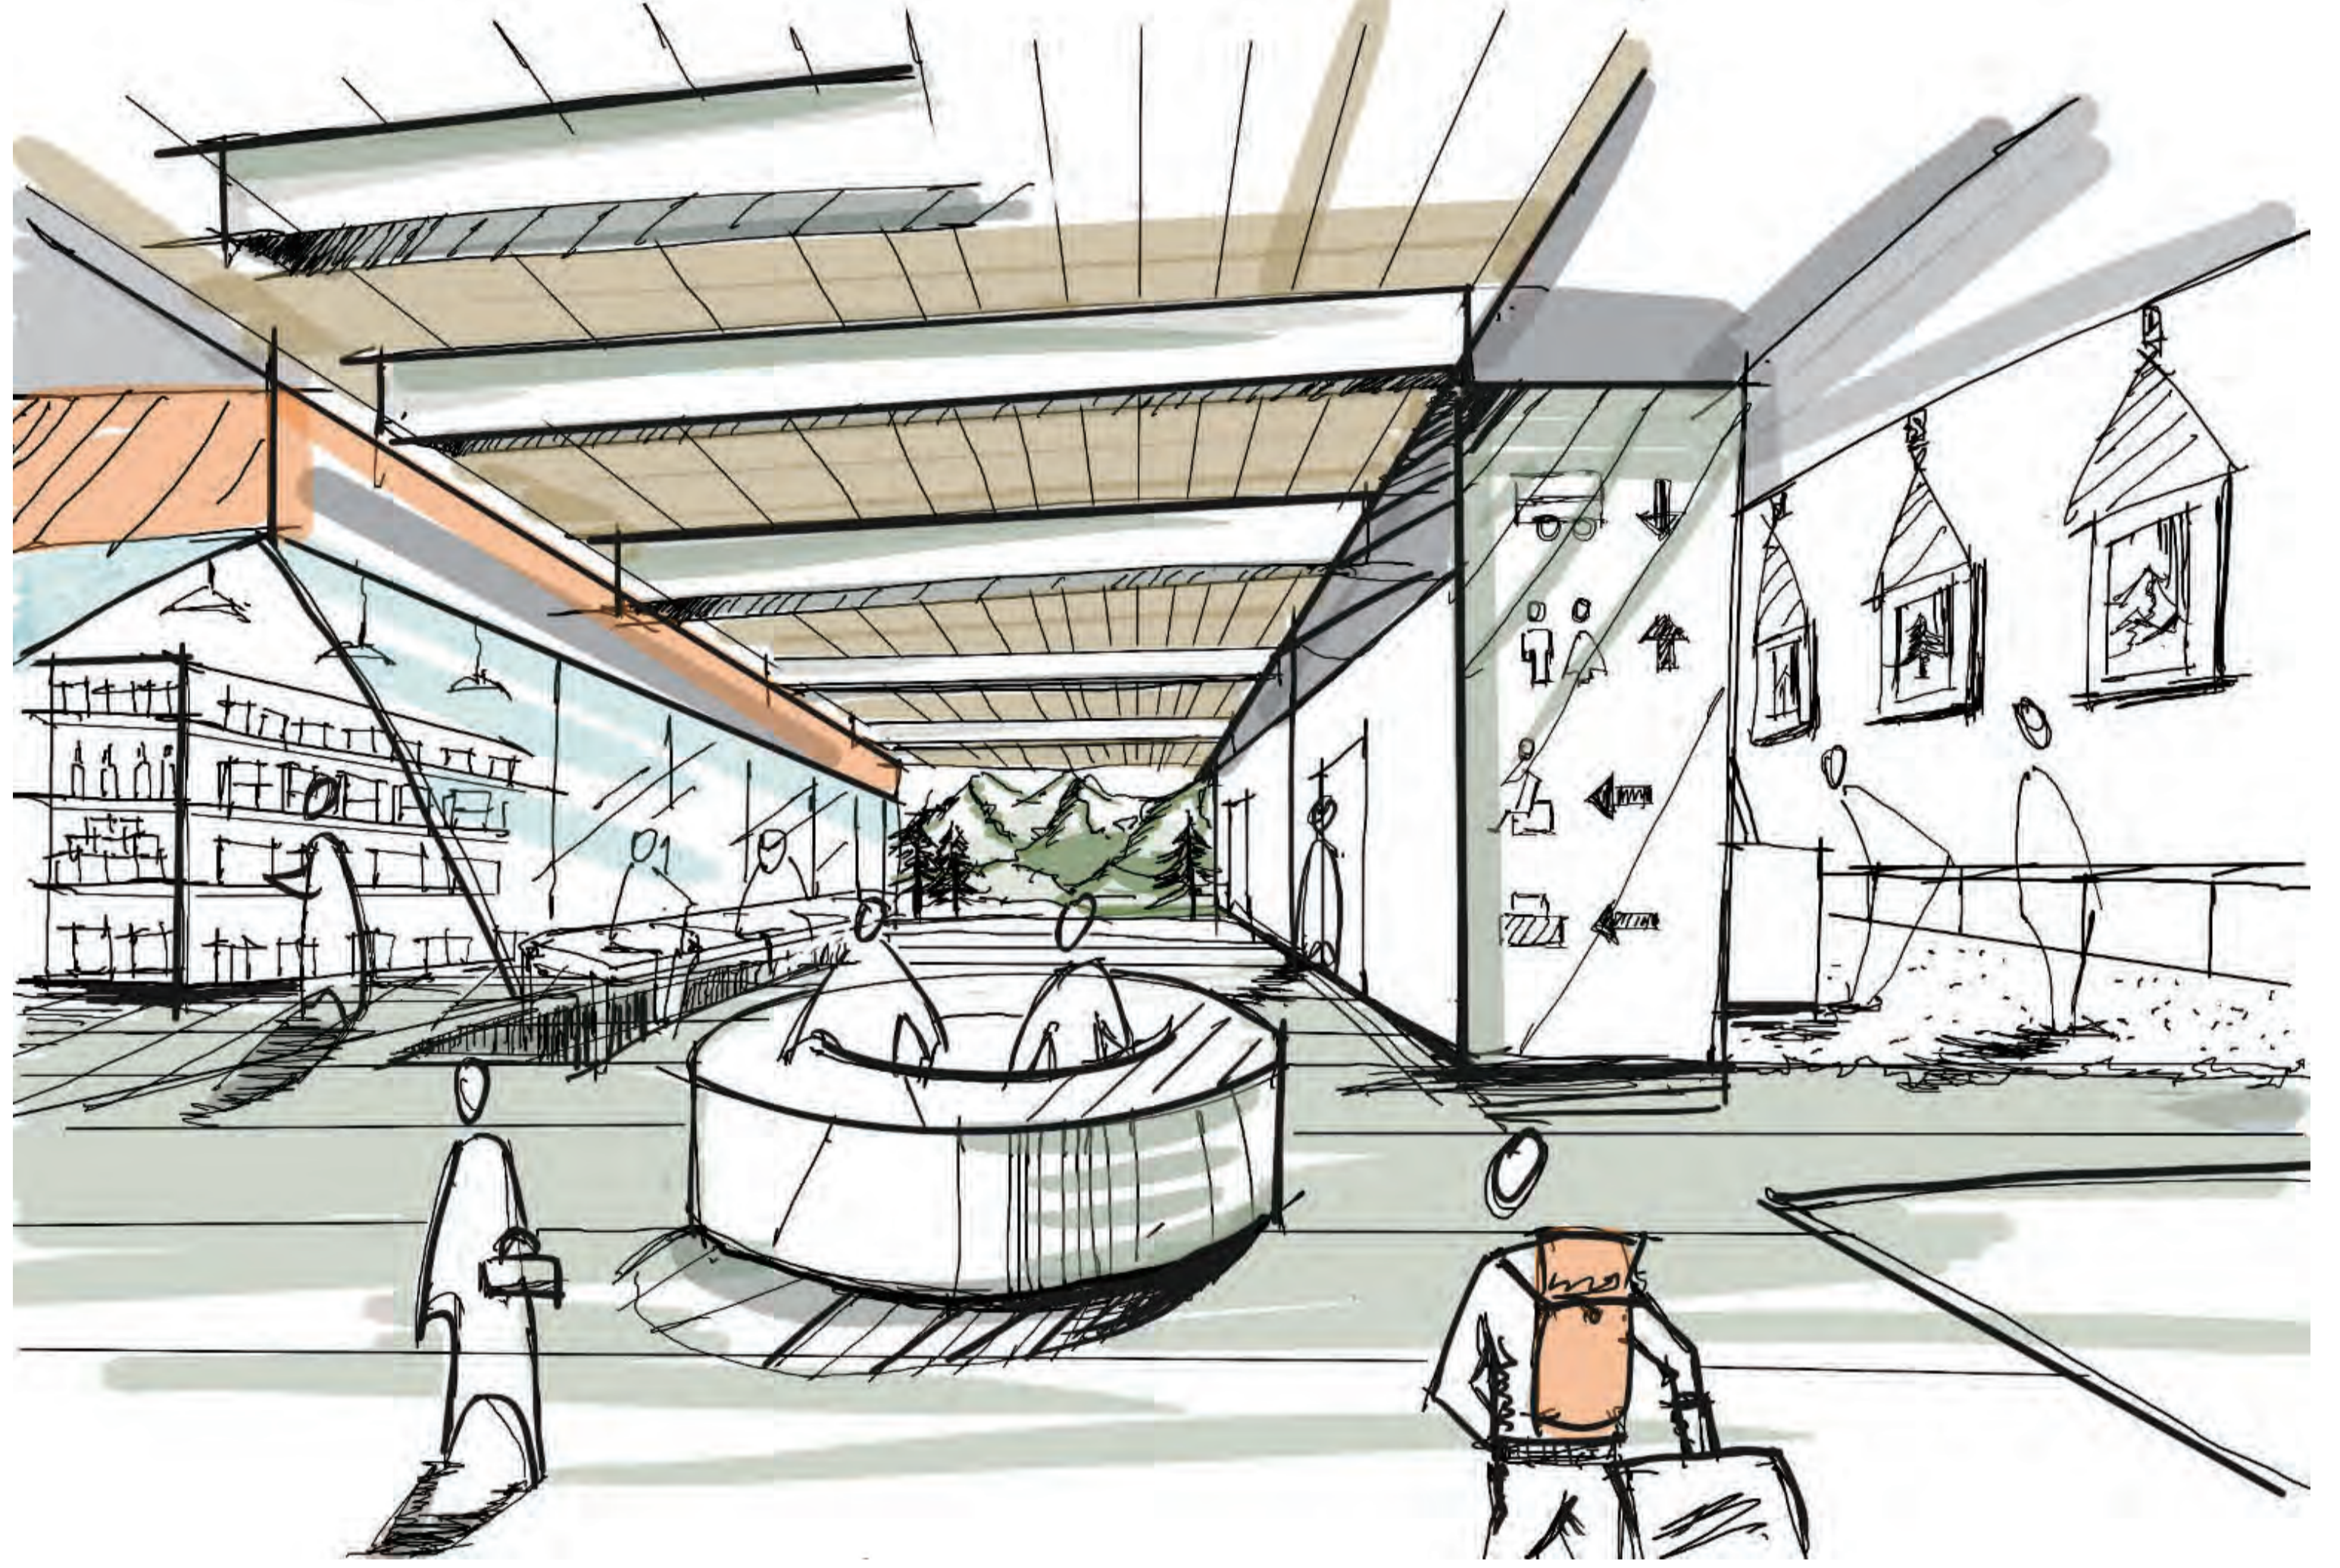

## Project Overview

This site currently has problems with large elevation differences and a lack of service facilities. To meet the needs of the 2031 Nordic World Championship, we redesigned the site. Our goal is to create an efficient transportation hub to serve different groups of people and include viewing areas in the building with good visibility.
